

## CineNet™ Remote Monitor

### FEATURES

- Four LEDs per auditorium and an audible alarm provide status information at a glance.
- Installs quickly. Serial data bus eliminates expensive wiring required by conventional remote stations needing hundreds of wires and terminations.
- Units can be ganged together at each location to monitor up to sixty auditoriums.
- Fire Alarm input initiates global shutdown of all projection systems.
- Can be surface or flush mounted. Flush mounting kits are available for all models.
- Durable all steel heavy-duty construction with black baked-on powder coat finish.

#### Overview:

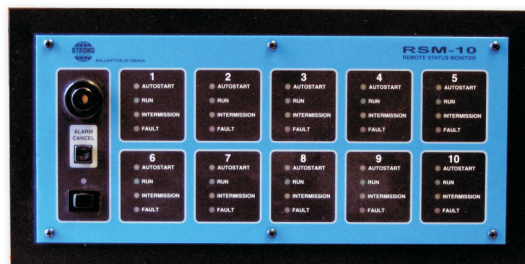

Strong CineNet Remote Monitors are microcontroller-based control and status monitors designed specifically for the cinema industry. These Remote Monitors display real-time status of all the auditoriums in a multiplex. The monitors are wired to the CNA automation system's LSN asynchronous serial network and can be located anywhere throughout the building such as the projection booth, manager's office and concession stand to provide personnel with a real-time account of each movie

#### Specifications:

Power Requirements:  
 RSM-10/RCM-10: 8.5 Watts (max)  
 RSM-20: 17 Watts (max)  
 Supply Voltage: 90-130 VAC or 180-260 VAC (user selectable)  
 50-60Hz single phase

#### Cabinet Dimensions:

RSM-10/RCM-10: 12.5 in W x 5.5 in H  
 (31.8 cm x 13.9 cm) x 3.0 in D (7.6 cm)  
 4.6 lbs (2.1 kg)  
 RSM-20: 12.5 in W x 10.0 in H  
 (31.8 cm x 27.8 cm) x 3.0 in D (7.6 cm)  
 9.0 lbs (4.2 kg)

**RSM-10** is a ten station remote status monitor featuring a sonic alarm and alarm cancel switch. The alarm can be programmed for various sound levels.\*

**RCM-10** is a ten station remote control monitor which has all the features of a RSM-10 with Start and Stop capabilities for each auditorium.\*

**RSM-20** is a twenty station remote status monitor that has all the features of a RSM-10 but monitors up to 20 auditoriums.\*

\* Shown with optional trim ring for flush mounting  
 Note: Trim ring adds 1.5" to W + H
